## Data Analyst / Analytics Consultant / Power BI Developer

 Hyderabad

 rk.krishna1988@outlook.com

 +91 – 973 15151 73

### SUMMARY

Experienced Data Analyst with over 4 Plus years of experience in gathering data from various sources and transforming it into insightful reports and dashboards. Proficient in data modeling and integrating reporting components from multiple data sources by using Power BI, SQL, DAX, SAP Datasphere, SAP Analytics Cloud, SSIS, Data Transformation, Power Query and Power BI Services.

### KEY CAPABILITIES

Power BI Desktop  
Data Modeling  
SAP Datasphere

Power Query Editor  
Data Transformation  
SAP Analytics Cloud

Power BI Services  
SQL – Server

DAX & Excel  
SSIS – ETL

### WORK ROLES & RESPONSIBILITIES

- Understanding business requirements in the BI context and design data models to convert raw data to meaningful insights.
- Analyzing data and presenting it through reports can help in decision-making.
- Creating dashboards and visual interactive reports using Power BI. Identifying KPIs with clear objectives and monitoring them consistently.
- Performing data extraction, transformation, and loading (ETL) processes. Performing DAX queries and functions in Power BI.
- Troubleshoot data-related issues and Publishing the reports into Power BI Services and Power BI Reporting Server.
- Using filters and graphs for a better understanding of the data:
  - Ensure the accuracy and reliability of data presented in the dashboards.
  - Trained end-users on how to use the dashboards and reports effectively.
- Creating Row Level Securities (RLS) and Power BI Gateways to schedule the Data refresh.
- Experience working with Microsoft SSIS to create and deploy packages and deploy for ETL processes.
- Experience in creating Power BI Gateways and RLS, Drill through/down and paginated reports.
- Design and develop SQL Server stored procedures, functions, views, tables, indexes and triggers to be used during the ETL process
- Builds data transformations with SSIS including importing data from files, moving data from one database platform to another.
- Debug and tune SSIS or other ETL processes to ensure accurate and efficient movement of data.
- Automating the entire ETL process by using SSIS transformations.
- Scheduling and deploying SSIS packages into SQL Agent server.
- Experience in creating Stored procedure, Views, triggers and functions to support application.
- Experience in creating views, tables and data sets to support Sales Operations and Analytics teams.
- Experience in creating and scheduling SQL Agent jobs and maintenance plans.
- Experience in modifying and maintaining SQL Server stored procedures, views, ad-hoc queries, and SSIS packages.
- Experience in creating SSIS packages to extract, validate and load data into Data warehouse.
- Worked with business analysts and gathered functional requirements. Designed technical design documents for ETL process.
- Extensive experience on creating SSIS packages and have used For each Loop container, Sequence Container for developing processes and loaded data using different transformations such as Derived Columns, Condition Split, Merge Join, Union all so on.
- Experience in Gathering requirements, design, and build of SAP Datasphere landscape.
- Experience in integrating SAP Datasphere with S4/HANA development to support various data and analytics initiatives.
- Experience in Develop, deliver, and support analytic solutions in alignment with business requirements using Datasphere and SAC.
- Experience in developing and maintaining SAP Datasphere - Tables, Views, Intelligent Lookup, Data Flow, Task Chain, etc.
- Experience in building SAP SAC data driven reports. Hands-on experience in creating Data Analytics Reports using SAP Analytics Cloud.
- Experience in preparing design documents, technical specification and unit test documents.
- Create and configure SAC models, stories, dashboards, and developing advanced analytical capabilities

---

## **WORK HISTORY**

<b>Analytics Consultant</b> Intellentech Pvt Ltd	Jul-2024 to Present
<b>Associate – Projects</b> Cognizant Technology Solutions	Feb-2022 to Apr-2024
<b>Software Developer</b> Velan Info Services	Jul-2020 to Feb-2022

---

## **EDUCATION DETAILS**

<b>Master of Business Administration (Finance)</b> Jawaharlal Nehru Technological University - KKD	Jan-2014
<b>Bachelor of Commerce in Computers</b> Andhra University	Mar-2011

---

## **PROJECT DETAILS**

<b>Project - 1:</b>  <b>Pricing Performance Report</b> Intellentech - (Manufacturing Domain)	Jul-2024 to Present
<u>Utilized Technical Tools:</u> SQL, SAP Datasphere, SAP Analytics Cloud (SAC) and SAP S4/HANA.  As part of developing the Pricing Performance Report, developed and implemented a comprehensive Pricing Performance reporting solution by integrating SAP Datasphere, SAP Analytics Cloud (SAC), and SAP S/4HANA. The solution was designed to provide a detailed analysis of pricing strategies, sales trends, and profitability, enabling data-driven decision-making for pricing optimization.	
<b>Project - 2:</b>  <b>QASR (Quality Analytics and Stars Reporting)</b> Cognizant – BCBSMN Client (Healthcare Domain)	Mar-2023 to Apr-2024
<u>Utilized Technical Tools:</u> SQL, SSIS, SSRS, Excel, Teradata, Power BI, DAX and Reporting Server  <b>QASR (Quality Analytics and Stars Reporting)</b> will collect the data from different source systems and will prepare the final consolidated Quality measure reports to the Vendors for the Medicare products. The purpose of this QASR is to deliver operational excellence and personalized member engagement strategies to maximize and sustain Star Rating and Quality Bonus Payments.	
<b>Project - 3:</b>  <b>Government Programs (Compliance Dashboard)</b> Cognizant – BCBSMN Client (Healthcare Domain)	Mar-2022 to Feb-2023
<u>Utilized Technical Tools:</u> SQL, SSIS, Excel, Power BI, DAX, SAP Datasphere, SAP Analytics Cloud and PBI Reporting Server  <b>Compliance Dashboard</b> focuses on 7 categories: Summary, Enrollment, ODAG, Sales Call Center, Customer Call Center, Claims and Sales Monitoring. Each tab provides supporting analytics to take a deep dive into the data and trends. The use of this Dashboard is to gain efficiency by automating as much of the data and processes as possible and displaying it together so leaders can manage the Compliance Reporting in a single location.	

---

## Project - 4:

### Zwilling Sales Dashboard, Germany

Velan – Zwilling Client (Manufacture Domain)

Jul-2020 to Feb-2022

Utilized Technical Tools: SQL, Excel, Power BI, Power BI Services.

**Zwilling Sales dashboard** focuses on 5 categories: Summary, Sales Metrics, Customer Metrics, Inventory Metrics and Sales & Profit Trends. Each tab provides supporting analytics to take a deep dive into the data and trends. The use of this Dashboard is to gain efficiency by automating as much of the data and processes as possible and displaying it together so leaders can find the trends.
